

Aircraft Availability Improvement for C-5 cargo planes at Robins AFB

**Proposed Recipient:** Intergraph

**Address of Recipient:** 170 Graphics Drive, Madison, AL 35758 USA

**Amount of Request:** \$4 Million

**Explanation of Request**

**Purpose:** To improve aircraft availability (AA), reliability, and maintainability, and reduce total ownership cost (TOC). The newly defined processes of this program will create enterprise-wide proactive planning, improve strategic mobility, implement total asset visibility, and achieve greater communication and operational situational awareness. The program focuses on the development and implementation of the Air Force Expeditionary Combat Support System (ECSS), which is the IT modernization component of the overall eLOG21 logistics transformation effort.

**Why is it a good use of Taxpayer funds:** Improved availability in C-5 aircraft with a significant increase by approximately more than seven aircraft per day to start in FY10, the MSG-3 program will realize a \$1.38B net present value savings from FY10 – FY40.
